Transfer of certain D.F. roads in the Hassan Dt. for maintenance from by Provincial Funds.

FILE No. 160 of 1904-05.

Transfer of certain District Fund roads in the Hassan District for maintenance by Provincial Funds.

1 From the President of the District Board of the Hassan District, letter No. 212, dated 26th September 1904.

Represents that a formal proposal of the District Board requesting to take the Yelwal-Hassan road, Sukravarasante, Subramanya road and Arsikere-Hassan roads for maintenance from Provincial Funds was not sanctioned by Government who directed in their Proceedings No. 436-39—L. F. 171-93, dated the 11th July 1901, that by a better adjustment of mileage allotments the financial difficulty felt by the Board may be got over, that the mileage allotments then reduced were raised in the budget of 1904-05 for the proper upkeep of the roads which had deteriorated; that in spite of all possible retrenchment in expenditure the financial condition of the Board has not improved, the closing balance at the credit of the Board falling of year by year, and requests that, under the circumstances, the maintenance of the abovementioned 3 roads may be kindly transferred from District Funds to Provincial Funds.

2 To the President of the District Board of the Hassan District, the Comptroller in Mysore, the Chief Engineer of Mysore, No. 5496-8, dated 24—27th December 1904.

States that Government regret that they cannot accept any more liability on the State Funds, and requests that District Board to make a better adjustment of their expenditure and to try and improve their resources by collecting tolls, etc., in all places where a good income is likely to be realized.

the 11th July 1901 that by a better adjustment of the mileage allotments the financial difficulty should be got over. The ~~reduced~~ allotments ~~were made~~ in respect of some roads were accordingly reduced but they had to be increased in the Budget for 1904-5 for their better upkeep ~~of the roads.~~

3. The President in the concluding para of the Assam Administration Report for 1902-3 again brought the matter to the notice of Govt and solicited Government to give relief to the Bd funds by transferring the above named roads to the P.W.D for upkeep out of the Provincial funds and Govt in para 6 of their Review No 3632-70 L.T 5-3-03 & 24-3-04 observed that this should form the subject of a separate communication to Government

4. The President accordingly makes a strong representation that the financial condition of the Assam Bd Board is gradually growing worse & requests the transfer repeatedly prayed for.

(204) 9. Submitted to the Dewan Saheb thro' the 1st Commissioner. Probably the P. W. D may not consent to the proposal made unless extra funds are given. My humble opinion formed from observation in the several districts of the Province is that if the funds now given are really spent on the roads regularly they will be in quite a trafficable condition. All this depends on the Executive Engineer. While in one district I found the roads in good condition, in another they seemed neglected although both were similarly situated in respect of the rate of the mileage allotment. Of late it has become the invariable practice

10 The Board's finances are in a most unsatisfactory condition. Relief of some kind seems deserved. The 2d & 3d of the roads in question viz Hagari-Adikere road and Subramanya-Subramanya road are of Provincial importance. The maintenance of one of them at least if not of both should in my humble opinion be transferred to State Funds. I hope this suggestion will receive favorable consideration. There are costly roads which the Board is ~~wholly~~ unable to maintain without wholly ignoring the numerous urgent local demands on its funds. In case relief is to be afforded, it may be given effect to from next year.

Roads for maintenance
by the Provincial funds

resolved that in view to afford relief to the District Funds in their straitened financial condition Government sanction be obtained to the transfer of the marginally noted three District Fund roads to the provincial funds. Thereupon Mr. D. Devaraj Iers supported the Board's recommendation (vide his letter No. 637/S dated 19th April 1901). In reply to this reference the Government in their Proceedings No. 436-39 / P.F. 171-93 dated 11th July/01 were pleased to direct that by a better adjustment of mileage allotments of the District Fund Roads the financial difficulty felt by the Board may be got over. The question of mileage allotments

allotments of the District Fund Roads in the District was accordingly taken up and discussed by the District Fund Board at their meeting held on 21st February 1902 and certain reductions in the allotments for some of the District Fund Roads were made. This reduced allotment however could not be kept on consistently with the proper maintenance of the roads and the Board had to increase the allotments while submitting the Budget Estimates of the Board for the current year— 1904—05.

2. In this connection, it may be stated that in spite of temporary relief afforded to the District Board by reduction of mileage allotments

and

Statement shewing the receipts & expenditure under District Funds during 1903-04 and estimates as sanctioned for 1904-05.

Name of Board	Receipts & expenditure for 1903-04						Sanctioned Budget Estimates for 1904-05

				Closing balance for 1903-04.	22309	15 10				Closing balance for 1904-05 ———	10,6	

The receipts & expenditure in excess of the sanctioned Budget Estimates for the current year are explained as follows:-

As only the sum actually required in the current year is allowed in the Budget Estimates, there is no receipt and expenditure for the current year under the head Public Works Department as entered in the Budget Estimates for 1904-05.

of original works and repairs, while civil charges of a permanent nature take up on an average more than Rs 18,000/- annually, so that only one-eighth of the whole estimated amount is available for works to be executed in the Revenue department. This provision for works in the Revenue Department is hardly sufficient to meet the demands of several villages for water-supply and urgent sanitary improvements in them. In this state of affairs the District Board cannot make any outlay on account of improvement of well-recognised cart-tracks and other projects which being of an urgent and useful nature have long

been

been under the consideration of the District Board. I beg to add here also that the closing balance at the credit of the Board is falling off year by year.

3. Under the circumstances above represented, I request that you will be so good as to move Government to sanction the transfer of the three roads in question for maintenance by the Public Works Department from Provincial Funds the necessity of which has been repeatedly brought to the notice of Government by my predecessors in office.

4. I beg to add that the proposal

appears

appears also expedient in view of the provincial importance of the roads mentioned.

I have the honor to be
